

Island Tours

We spoke with Captain Ramon who has 3 tour boats of the over 350 islands in Lake Nicaragua about providing tours for our guests. He has agreed that he will come to the apartments, pick up the guests, take them on a one hour tour and return them to the apartments for \$25.00. His vehicle can hold 4 people but other transportation can be arranged for additional people or he can make a couple of trips. The additional 4 people will be \$5.00 extra. So for \$30 eight people can have a one hour tour of the islands. This is one of those must do things in Granada as your trip won't be complete without seeing the weekend home of Nicaragua's first billionaire, homes on islands where people live by fishing, feeding monkeys on monkey island or just enjoying the view of the Mombacho Volcano from the water.

He will also arrange for fishing in the lake and will provide poles, bait and even clean and filet your catch so you can have fresh fish from the lake. The price for this will vary depending on the equipment, bait you use and a couple of other factors but will still be around \$25.
